Assignments

AI on the Move: How Distributed AI Shapes Our World

Instructions:

Research

Explore the video [Distributed AI Systems: The Collective Intelligence of Machines \(https://www.youtube.com/watch?v=cHTvVr1w_7s\)](https://www.youtube.com/watch?v=cHTvVr1w_7s), or use a GenAI tool to help you find another relevant article, podcast, or video you find on Distributed AI:

Identify **two real-world applications of distributed AI** (e.g., smart home ecosystems, fleet management in logistics, multi-player gaming AIs, healthcare monitoring networks, swarm robotics, voice assistants in multiple devices, etc.)

Write a Concept Summary:

1. Explain distributed AI in your own words.
2. Summarize your two chosen applications:
 - A. What problem does it solve?
 - B. How multiple AI agents/systems work together,
 - C. Why is distribution necessary or beneficial?
3. Reflect on one challenge of distributed AI systems and one advantage over centralized AI.
4. What surprised you most in your research?

Submission Instructions

- The essay should have a structure: Title/cover page (your name, course name, term, my name), Introduction, Body/Analysis, Conclusions, and References.
- The essay's format should follow the APA style.
- Include visuals whenever appropriate.
- Submit the following file:
 - ALY3510_FirstnameLastname_WeekX_Term_Year.doc/.docx/.pdf/.html

Rubric for AI Assignment (4)

Criteria	Ratings				Pts
Conceptual Understanding (AI Concepts & Methods)	20 pts Demonstrates exceptional mastery of AI concepts with sophisticated understanding of algorithms, models, and computational approaches. Explains complex technical details accurately and seamlessly connects theory to practice.	18.5 pts Shows solid understanding of core AI concepts with accurate explanation of key algorithms and methods. Makes appropriate connections between technical approaches and applications.	17 pts Demonstrates basic understanding of AI concepts but may have some gaps or inaccuracies. Limited ability to explain technical details or make connections between concepts.	15 pts Shows minimal understanding of AI concepts with significant gaps or misconceptions. Unable to explain technical approaches or demonstrate basic comprehension.	20 pts
Research & Evidence (Source Quality & Integration)	20 pts Uses high-quality, current, and diverse sources from various disciplines. Expertly synthesizes information, cites sources appropriately, and demonstrates thorough research using credible academic and industry sources.	18.5 pts Uses appropriate and credible sources with a good variety. Integrates information well and cites sources correctly. Research supports arguments effectively.	17 pts Uses adequate sources but may lack variety or currency. Some integration of information, but may be superficial. Citation issues or limited research depth.	15 pts Poor source selection, outdated or unreliable sources, minimal research, or significant citation problems. Fails to support arguments with evidence.	20 pts

Criteria	Ratings				Pts
Critical Analysis & Evaluation (Reasoning & Judgment)	20 pts Provides sophisticated critical analysis with well-reasoned arguments, evaluates multiple perspectives, identifies limitations and biases, and demonstrates original thinking. Uses evidence effectively to support conclusions.	18.5 pts Demonstrates good critical thinking with clear analysis of key issues, evaluates different viewpoints, and draws reasonable conclusions supported by evidence.	17 pts Shows some analytical thinking, but analysis may be shallow or one-sided. Limited evaluation of different perspectives or weak use of evidence.	15 pts Little evidence of critical analysis. Fails to evaluate information critically, draws unsupported conclusions, or demonstrates unclear reasoning.	20 pts
Innovation & Creativity (Original Thinking)	20 pts Demonstrates exceptional creativity and original thinking. Proposes innovative solutions, asks thought-provoking questions, or presents unique perspectives that advance understanding of the topic.	18.5 pts Shows good creativity and some original thinking. Presents interesting ideas or approaches that demonstrate engagement with the material beyond basic requirements.	17 pts Limited creativity or original thinking. Mostly follows conventional approaches with occasional attempts at innovation or unique perspectives.	15 pts Little to no evidence of creativity or original thinking. Relies entirely on conventional approaches without attempting innovative or unique perspectives.	20 pts
Communication & Presentation (Clarity & Organization)	20 pts Unambiguous, well-organized, and engaging presentation of ideas. Uses appropriate	18.5 pts Clear and well-organized communication with proper use of technical language. Good	17 pts Generally clear communication but may have organizational issues, unclear explanations, or	15 pts Poor communication, characterized by unclear organization, inappropriate	20 pts

Criteria	Ratings				Pts
	technical language, visual aids effectively, and adapts communication style to the audience. Error-free writing/presentation.	structure and flow with minimal errors. Effective use of visuals if applicable.	moderate errors that interfere with understanding.	language use, or significant errors that impede learning. Lacks coherent structure.	
Total Points: 100
